Your team also scans for viruses while backing everything up for fast retrieval.

***NO loss of sales due to **avoidable technical** issues***

# The Garage

## PLANS: Level I

**No tools. No dashboards. Nope. No logins and no tickets.**

Inside the Garage, your Teams get to work building a system around what makes your business worth choosing. We take what sets you apart and fit it into lite mix of **Maple Match**, **Lead Pages**, **Funnels** and **Business Pages**, each designed to match how your customers actually search, evaluate, and decide.

No clutter. No guesswork. Just the right components, properly tuned and aligned.

Everything runs to current SEO standards and is continuously refined for performance. The result is a marketing engine that works in the background, consistently attracting attention, generating interest, and turning it into real opportunities.

**We handle it. Period.**

# The Garage

## PLANS: Level II

**No tools. No dashboards. Nope. No logins and no tickets.**

We take what sets you apart and put more of it to work, expanding into a broader, more active mix of lead-generating assets drawn from our deeper proprietary toolkit.

This isn't set-and-forget. Your marketing system pays attention, we step in and make deliberate changes keeping your site active, current, and signaling to both visitors and search engines that your business is engaged and moving.

We also build out **more pathways for conversion**; **more entry points** - **more opportunities** for prospects to **engage**, be guided, and take action. An expanded system that's actively tuned, regularly advanced, and built to generate steady, compounding momentum.

**We handle it. Period.**

# The Garage

## PLANS: Level III

### A Brand New Engine

A powerful "ground up" website build using the most modern techniques, with monthly tune ups, speed testing, software and page updates all focused on SEO and Conversion success; delivering leads and customers.

This is no longer about working around an existing structure. It's about operating within one that's been **purpose-built to convert**. Every page, pathway, and entry point is aligned from the start - designed to guide visitors, support decision-making, and move opportunities forward without friction. Your **additional funnels** and **lead pathways** are expanded and fully integrated into the core build—creating a seamless flow from first interaction to final action. Nothing feels added on. Everything works together.

**We handle it. Period.**
